

SAFETY ON THE LINE

A service of the NASA KSC Safety and Mission Assurance Directorate

February 2007

"Talent is great but overrated. Determination, which stems from a belief in one's ability to succeed, is usually what separates the winners from the losers." --- Anonymous ---

The photo to the right was recently taken on KSC property. It should serve as a reminder to everyone that KSC shares boundaries with Merritt Island's National Wildlife Refuge. Besides alligators there are numerous other animals, such as bears, wild pigs, and deer that can create hazards. Please be very cautious when driving, approaching water, fishing, walking near lakes, etc.

If you encounter wildlife at KSC, call the Duty Office at 853-5211. Fish and Wildlife personnel will be contacted for relocation if necessary. If you have questions contact the NASA Environmental Program Branch at 867-8448 or the Fish and Wildlife Service at 861-0667. For more information on the Wildlife Refuge go to <http://www.fws.gov/merrittisland/>

**Remember - Organizational Safety
& Health Organizational Focus
Jan. 16 – Feb. 15**

•Fire Safety Reminder

If you encounter a fire on KSC property, you must dial 911 or 867-7911 from a cell phone for an Emergency Response – **even if you extinguish the fire prior to fire department arrival.** Fire Services must ensure that the fire has been properly extinguished and investigated to preclude a similar occurrence.
- - Michael B. Stevens, P.E., KSC Authority Having Jurisdiction

**February 11-17
is National Child Passenger Safety Week –
for additional information go to
www.nhts.gov.**

Do you have questions, comments, or an article you would like to submit? Contact Marguerite Davis at 867-8520, fax number 867-1120, mail code SA-E2 or e-mail them at "Safety on the Line" found in your global address list. Safety on the Line is also on the Web at <http://sotl.ksc.nasa.gov>.
